

**Central Missouri Scale Modelers Club**  
**Meeting Minutes**  
**2016-02-18 (February)**

**Attendance:**

The meeting started at 6:37pm with 5 members attending.

**Financial Report:**

No financial report as the Treasurer is getting bank stuff lined up and updating information.

**TigerCon:**

The date for TigerCon is confirmed as November 5<sup>th</sup>. There is no UMC football game that day (yeah!). Date is confirmed on the calendar with IPMS Region5.

**Revell Make-N-Take Update:**

The order is in to re-stock the club's supply. One box has been ordered, which contains 25 Snap-Kit Skill Level 1 kits.

**General Discussion on Air Brushing:**

The club enjoyed a long discussion about air brushing. Several members had some unique questions, which were answered. Also noted was the importance of using good paint, most especially when first learning. The club decided. "You can use a cheap airbrush, but you gotta use good paint."

**General Discussion on Lighting:**

The club discussed how various members handle lighting when building and painting their models. Most notably, making sure to use DAYLIGHT fluorescent lamps was brought up. Several members have had models look great in the hobby room, but end up with "off" colors once outdoors for photos or when displayed in a place where true light shines on them.

**Club Clinic:**

The presenter was unable to make the meeting, so the club watched an impressive video on using acrylic paints to weather armor. The video was titled "AFV Acrylic Techniques".

After the program, the chairs and the tables were put away.

The meeting adjourned at 7:53pm.
