

Central Missouri Scale Modelers Club
Meeting Minutes
2016-03-17 (March)

Attendance:

The meeting started at 6:32pm with 9 members attending.

Financial Report:

The Treasurer reports the bank has all the correct names and address now.

Revell Make-N-Take Update:

The order should be arriving soon. If a club member wants one of the models, remember to bring \$5.

General Discussion about Increasing Membership:

During discussion, the club recognized that young folks nowadays don't participate in clubs or endeavors that require extended time. It was decided to concentrate on building membership with older members. The club discussed outreach taking the form of coming up with activities and short events that involve youth. Also, getting back into providing displays at local places, like the Daniel Boone Regional Library, would be good outreach. The club (and the industry) have noted that the average starting age of folks who get into scale modelling is rising. The idea would be to make youth aware of scale modelling so that when they are older it is something they remember and then look into doing.

Club Clinic:

A presentation was made on how to print ones' own decals.

After the program, the chairs and the tables were put away.

The meeting adjourned at 7:40pm.
