

**Central Missouri Scale Modelers Club**  
**Meeting Minutes**  
**2016-06-16 (June)**

**Attendance:**

The meeting started at 6:31pm with 10 members attending.

**Financial Report:**

The Treasurer reported the bank balance is \$2436.

**TigerCon Make-N-Take Snap Kits:**

After the kits purchased by club members for MOTQ3, 15 Snap-Kits have been added to the TigerCon inventory.

**TigerCon:**

Given the current state of the club treasury, the club would like to proceed with ordering the award plaques for TigerCon 2016. Also, the club would like to acquire some "Honorable Mention" ribbons or ribbon-buttons. After reviewing the cost of the BOS and PC award plaques, the club would like to find a less expensive version for these awards.

**Increasing Club Membership:**

All us club members are getting older. How do we increase our membership? Lengthy discussion ensued. The club was split when it came to continuing to attract youth. However coming up with ways to attract older members was agreeable to all. Ideas included...

The Daniel Boone Regional Library display case. The club had a display once before on the fourth floor in tandem with the library's monthly themed reading program. It was decided to contact the library and see if we could do this again.

The Boone County Historical Society. Are there displays we could build for them? It was decided to contact them.

Tuskegee Airmen Event. This is an ongoing event which the club would like to continue doing. Perhaps we could take the display to other locations as well?

Culvers. They have a display area which often has various stuff in it. Could the club put up a display in a Culvers somewhere? A couple members volunteered to contact their local Culvers.

Valhalla's Gate. Could we do a demo, or a display, using stuff they sell?

**Club Business Cards:**

The club decided they would like to have the business cards updated for the club. These will be made available for club members to hand out to people they meet. They should be generic and list the time and meeting location for the club meetings.

**MOTQ2 Judging:**

The Model of the Quarter theme was Airplanes. Seven club entries were judged. Club member Tim with his C-17 Globemaster was selected as the champion airplane model by popular vote.

**Club Clinic:**

A demonstration with discussion on vacu-forming parts.

After the program, the chairs and the tables were put away.

The meeting adjourned at 7:45pm.
